

Urban Mining

Holly Arntzen/Kevin Wright/David Sinclair

Kids sing bolded

There are veins of precious metals richer than any goldmine
running through our cities, everybody's living online

You might even have some in your pocket

And we're not just talkin' some little locket

We're talking cell phones and batteries

notepads and flat screens

motherboards and coffee makers...

computers and refrigerators

All the rare earth elements crucial to modern living
Come from the Earth. How long can she keep giving?

The more we reuse the less we have to extract

Don't throw stuff away...take it back

Recycle cell phones and batteries

Notepads and flat screens

motherboards and coffee makers

printers and defibrillators

VCRs and dead cars

pop cans and old tires

microwaves and circuit breakers...

computers and refrigerators

All the energy it takes the world to make new things
Changes our climate and all the changes that brings

Urban mining recovers treasure from the trash

Rethink consumption, make things last

Recover cell phones and batteries

Notepads and flat screens

motherboards and coffee makers

printers and defibrillators

VCRs and dead cars

pop cans and old tires

microwaves and circuit breakers...

Urban mining, Urban mining

Urban mining, Urban mining

...computers and refrigerators
