

Sing our future into being

©2012 Arntzen/Wright/MJS Grade 5's

I dream of ending world hunger
I wonder if it will happen
I hope to see people happy and free
I want a world of peace and love
I dream that the sun will shine brightly

Natural...beautiful...peaceful Earth
Magical...infinite...universe
Singing together...we make it better
Sing our future into being...right now

I dream of future forests
Standing tall forever
I love to climb as high as I can go
I feel as though I can fly
I see the leaves blowing in the sky

Natural...beautiful...peaceful Earth
Magical...infinite...universe
Singing together...we make it better
Sing our future into being...right now

Spoken word:

I hear laughter from all corners
I see no smoke in the sky
I dream that everyone has the chance to do what they want
I worry that bullying is too big to stop
I hope to hear more music in the world and on the street
We'll try not to play x box for three months

We promise to be a voice
For those who do not have one
We bear the burden of the Earth
We promise to help living things
We are the forebearers of time
We are the forebearers of time

Natural...beautiful...peaceful Earth
Magical...infinite...universe
Singing together...we make it better
Sing our future into being

Natural...beautiful...peaceful Earth
Magical...infinite...universe
Singing together...we make it better
Sing our future into being

Natural...beautiful...peaceful Earth
Magical...infinite...universe
Singing together...we make it better
Sing our future into being
Sing our future into being...right now
